The Chief Medical officer of Health (All District and Health District, West Bengal)

The Superintendents (All Covid Hospitals, West Bengal)

The Director / CEO / Medical superintendent (All Private COVID Hospitals, West Bengal)

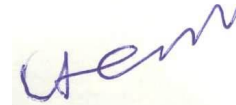

Sub: Advisory on Case Management for COVID – 19 Patients

The experts from the Protocol Monitoring Team as deputed by the Department of Health and Family Welfare, Government of West Bengal visited some COVID hospitals and noted certain lacunae in practice which need urgent rectification. On the basis of their observations, following recommendations are made:

1. Oxygen prescription mentioning device, flow and target SpO2 is mandatory.
 2. The indication of mechanical ventilation along with ABG reports should be clearly mentioned in BHT. HFNC or NIV trial should be tried before invasive ventilation under close monitoring.
 3. Judicious use of antibiotics is necessary as per hospital antibiotic policy and standard guideline.
 4. Cultures needs to be done routinely and before initiation and change of antibiotics.
 5. If a patient needs to be referred to other hospital, he/ she must be stabilized before transferring and a case summary should be attached.
 6. Fluid electrolyte balance and blood glucose should be monitored and recorded methodically and periodically as per guideline.
 7. Super specialty consultation should be taken if necessary and advice must be noted down.
 8. Top sheet, provided by Govt of WB, Should be maintained properly and time to time for all patients.
 9. Treatment protocols and guidelines must be displayed at ICU and wards.
 10. Consultant should visit and examine the patients regularly and advice should be written in file clearly.
- These recommendations, if properly practiced, will improve patient outcome. During subsequent visits teams will specifically check if these suggestions have been implemented.
