Now presently, total numbers of active cases are coming down gradually and rates of hospitalization of Covid patients are also going down. Under these present circumstances, it has been decided that these beds of private hospitals requisitioned by Government may be released in phases, so as to allow these private hospitals to do their own business.

The details of present number of beds functioning, the number of beds which will be released in this phase and the balance number of beds which will remain after release of these beds is given in Annexure A.

If required as urgency, these beds may be taken over again with a three days notice.
