

GOVERNMENT OF WEST BENGAL
DEPARTMENT OF HEALTH & FAMILY WELFARE
State Blood Transfusion Council, West Bengal
Swasthya Bhawan, Salt Lake, Block GN-29, Sector V, Kolkata- 700091,

Memo. No: HFW-28013(99)/3/2021-SBTC SEC-Dept. of H&FW/ 34

date : 05/05/2022

ORDER

For the purpose of effective and transparent management of blood transfusion services, the State Blood Transfusion Council (SBTC) has developed an IT solution, Web-based Blood Bank Management System, to capture all activities starting from scheduling of camps to the issue of blood and components to the requisitioning hospitals. Project has been piloted and is successfully running at both IBTM&IH and Calcutta National Medical College & Hospital. Proposed system is expected to provide information on real time availability of group-wise blood stocks/components for the benefit of clinical establishments and general population.

Subsequent to the successful piloting, it had been decided to roll out the system in all Government blood banks in phases. Accordingly, deployment of system and training of personnel had been completed for 14 Blood Banks (list of Blood Banks mentioned in Annexure 1) across the State.

It has been decided by the competent authority that in above mentioned 14 Blood Centres, all activities starting from scheduling of camps to issue of subsequently collected and tested blood units/components shall take place through new system.

This order is issued in public interest.

All concerned are informed accordingly.

Special Secretary,
Health & Family Welfare Department,
Project Director, WBSAP&CS and
Member Secretary, SBTC
