No. HFW-14099/64/2022-SPSRC SEC-Dept. of H&FW/486

Dated: 04.11.2022

From  
Director of Medical Education  
Department of Health & FW

To  
Directors/ Principals of all Medical Teaching Institutions

Department of Health & FW has already introduced an online data entry and reporting module for Bacterial identification and antibiotic susceptibility named 'Microbial Identification & Antimicrobial Resistance Detection System (MIARDS)' vide order No. HFW-14099/64/2022-SPSRC/ 468 Dated: 27.09.2022. It has been seen that some units are yet to start data entry in this system and some units are very much irregular regarding data entry. All bacterial identification & susceptibility testing data either by automated method or manual method are supposed to be updated regularly in MIARDS.

In this regard following directives should be followed:-

- i. All units should enter all bacterial identification & susceptibility testing data regularly in MIARDS
- ii. Regular data entry might be done by any medical or para-medical personnel under Microbiology Department or any suitable data entry operator already engaged in the IDSP / RNTCP / RT-PCR or related data entry
- iii. One nodal officer for this purpose should be identified by the Microbiology Department, not below the rank of Assistant Professor and communicated to the Mail ID - [miards.wb@gmail.com](mailto:miards.wb@gmail.com)
